PROJECTS

Shlipkart Built an E-commerce website application to search for Products and Add them to a cart using NextJS, Typescript, MongoDB, Prisma ORM, and boolean queries. Over 2500 people have used it so far using the Authentication feature with GCP, with 500+ products being added to the cart and bought, and search results even better than Flipkart! [(Try it here)](#)

URL-Shortener(working) Developed a full-stack web application using Node serving CRUD operations with React as the frontend and Node and Express as the Backend.Developed a separate admin page to monitor data. [(see code here)](#)

Personal Portfolio Developed a web application using Next.JS, Typescript, Tailwind CSS to showcase all my work [(Try it here)](#)

EXTRA-CURRICULAR ACTIVITIES

- Actively write social media posts ([Twitter](#), viewed by over 2K+ job seekers per week to help people with best practices to land their dream jobs.
